

Project Design Phase

Proposed Solution Template

Date	28 June 2026
Name	Kavyasri Meghana karunakaram
Project Name	Automated Network Request Management in ServiceNow
Maximum Marks	2 Marks

Proposed Solution

The **Automated Network Request Management in ServiceNow** system is designed to simplify and automate the entire network request lifecycle. Users can submit requests through the **Service Catalog**, after which the system automatically validates the request, routes it to the appropriate approver, generates the required tasks, updates the request status, and sends email notifications. By using **Flow Designer** and automated workflows, the solution minimizes manual intervention, improves request visibility, and enhances the overall efficiency of IT service management.

Objectives

- Automate the network request workflow.
- Minimize manual effort and processing delays.
- Provide real-time request status tracking.
- Improve the overall user experience.

Key Features

- Self-Service Catalog
- Automated Approval Workflow
- Flow Designer Automation
- Email Notifications
- Real-Time Request Tracking

Expected Benefits

- Faster request completion.
- Increased operational efficiency.
- Better visibility into request progress.
- Fewer manual errors.
- Improved SLA compliance and service quality.

PROPOSED SOLUTION TEMPLATE

Project Title : _____ Date : _____
Prepared By : _____ Version : _____

1. SOLUTION OVERVIEW

Provide a brief overview of the proposed solution, its purpose and how it addresses the identified problem.

2. OBJECTIVES

List the key objectives that the proposed solution aims to achieve.

- _____
- _____
- _____
- _____
- _____

3. TARGET USERS / STAKEHOLDERS

Identify the primary users / stakeholders of the solution.

- _____
- _____
- _____
- _____
- _____

4. PROPOSED SOLUTION DESCRIPTION

Describe the proposed solution in detail including key features, functionalities and technologies to be used.

5. KEY FEATURES / FUNCTIONALITIES

List the major features / functionalities of the solution.

- _____
- _____
- _____
- _____
- _____

6. SOLUTION ARCHITECTURE

Provide a high-level view or diagram of the solution architecture.

(Insert Diagram / Architecture)

7. IMPLEMENTATION APPROACH

Outline the approach and steps to implement the proposed solution.

Phase	Activity / Task	Description	Deliverable	Timeline

8. EXPECTED BENEFITS

List the expected benefits and value the solution will deliver.

- _____
- _____
- _____
- _____
- _____
